Introduction

SiteGuarding operates web-based services at SiteGuarding.com. It is SiteGuarding's policy to respect your privacy regarding any information we may collect while operating our websites. Website Visitors

Like most website operators, SiteGuarding collects non-personally-identifying information of the sort that web browsers and servers typically make available, such as the browser type, language preference, referring site, and the date and time of each visitor request. SiteGuarding's purpose in collecting non-personally identifying information is to better understand how SiteGuarding's visitors use its website. From time to time, SiteGuarding may release non-personally-identifying information in the aggregate, e.g., by publishing a report on trends in the usage of its website.

SiteGuarding also uses third party tracking-utility partners who use log files to collect potentially personally-identifying information like Internet Protocol (IP) addresses. SiteGuarding does not use such information to identify its visitors, however, and does not disclose such information, other than under the same circumstances that it uses and discloses personally-identifying information, as described below.

Gathering of Personally-Identifying Information

Certain visitors to SiteGuarding's websites choose to interact with SiteGuarding in ways that require SiteGuarding to gather personally-identifying information. The amount and type of information that SiteGuarding gathers depends on the nature of the interaction. For example, we ask visitors who sign up as a user at SiteGuarding.com to provide an email address. We also provide them the opportunity to provide additional information such as name and phone number. Those who engage in transactions with SiteGuarding – by purchasing a account plan at SiteGuarding.com, for example – are asked to provide additional information, including as necessary the personal and financial information required to process those transactions. In each case, SiteGuarding collects such information only insofar as is necessary or appropriate to fulfill the purpose of the visitor's interaction with SiteGuarding. SiteGuarding does not disclose personally-identifying information other than as described below. And visitors can always refuse to supply personally-identifying information, with the caveat that it may prevent them from engaging in certain website-related activities.
